

First-quarter total participating account investment report

Now updated to March 31, 2013

The March 31, 2013 [total participating account investment report](#) is now available.

The quarterly total account investment report gives clients the information required to see high level changes in the participating account asset mix.

- The total account report is updated electronically each quarter and printed at second quarter and year-end.
- Each of the asset class reports are updated electronically at second and fourth quarter.
- The [Performance for the long term](#) participating account one-pager provides the year-end historical return information which can be used to complement the quarterly participating account investment reports.

The March 31, 2013, *Total Participating account* report is available electronically on Canada Life™ *RepNet* under Product & Tools > Life insurance > Participating life > Financial reporting > Participating account investment reports.

For more information on participating life insurance, contact your MGA, branch office or a Canada Life regional marketing centre.
